GOT YOUR ACE SCORE?

PATIENT NAME: _____ DATE: _____

WHAT'S YOUR ACE SCORE?

There are 10 types of childhood trauma measured in the ACE Study. Five are personal — physical abuse, verbal abuse, sexual abuse, physical neglect, and emotional neglect. Five are related to other family members: a parent who's an alcoholic, a mother who's a victim of domestic violence, a family member in jail, a family member diagnosed with a mental illness, and the disappearance of a parent through divorce, death or abandonment. Each type of trauma counts as one. So a person who's been physically abused, with one alcoholic parent, and a mother who was beaten up has an ACE score of three.*

Prior to your 18th birthday:

1. Did a parent or other adult in the household often or very often... Swear at you, insult you, put you down, or humiliate you? Or Act in a way that made you afraid that you might be physically hurt?
No _____ If Yes, enter 1 _____
2. Did a parent or other adult in the household often or very often... Push, grab, slap, or throw something at you? or Ever hit you so hard that you had marks or were injured?
No _____ If Yes, enter 1 _____
3. Did an adult or person at least 5 years older than you ever... Touch or fondle you or have you touch their body in a sexual way? or Attempt or actually have oral, anal, or vaginal intercourse with you?
No _____ If Yes, enter 1 _____
4. Did you often or very often feel that ... No one in your family loved you or thought you were important or special? or Your family didn't look out for each other, feel close to each other, or support each other?
No _____ If Yes, enter 1 _____

5. Did you often or very often feel that ... You didn't have enough to eat, had to wear dirty clothes, and had no one to protect you? or Your parents were too drunk or high to take care of you or take you to the doctor if you needed it?
No _____ If Yes, enter 1 _____
6. Was a biological parent ever lost to you through divorce, abandonment, or other reason ?
No _____ If Yes, enter 1 _____
7. Was your mother or stepmother: Often or very often pushed, grabbed, slapped, or had something thrown at her? Or Sometimes, often, or very often kicked, bitten, hit with a fist, or hit with something hard? Or Ever repeatedly hit over at least a few minutes or threatened with a gun or knife?
No _____ If Yes, enter 1 _____
8. Did you live with anyone who was a problem drinker or alcoholic, or who used street drugs?
No _____ If Yes, enter 1 _____
9. Was a household member depressed or mentally ill, or did a household member attempt suicide?
No _____ If Yes, enter 1 _____
10. Did a household member go to prison?
No _____ If Yes, enter 1 _____

Now add up your "Yes" answers: _____

This is your ACE Score

*Note: There are, of course, many other types of childhood trauma — watching a sibling being abused, losing a caregiver (grandmother, mother, grandfather, etc.), homelessness, surviving and recovering from a severe accident, etc. The ACE Study included only those 10 childhood traumas because those were mentioned as most common by a group of about 300 Kaiser members; those traumas were also well studied individually in the research literature. The ACE score is meant as a guideline: If you experienced other types of toxic stress over months or years, then those would likely increase your risk of health consequences.
